

# Small FWD MT 5/6MTT152/215

All new modular manual transmission family that delivers best-in-class torque density, shift quality and fuel efficiency.

Three different versions deliver a modular state-of-the-art transmission concept that can be adapted to the all customer and market requirements.

## Features and Specifications

- Max. torque: 150/240Nm
- Weight (dry): 29/32 kg
- Installation length: 368/382 mm
- Center distance: 178/184 mm
- 1st gear ratio: up to 17.305
- Gear ratio spread: up to 6.01
- Vehicle segments: B- and C-car
- Max gross vehicle mass: 1975 kg
- Max gross trailer mass: 3050 kg

## Competitive advantage/differentiators

- Modular 5/6-speed manual transmission
- Best-in-class torque-weight-ratio (7,5 Nm/kg)
- Best-in-class shift quality
- Design protected for hybrid versions

## Applications/benefits

- No dual mass flywheel necessary
- Synchronized reverse gear
- Gear neutral sensor available
